

THE FOLLOWING IS CLAIMED:

- 1) A composition comprising a combination comprising at least one water dispersible polymer selected from the group consisting of vinyl acetate, vinyl acetate copolymers, vinyl acetate emulsion, polyvinyl acetate and polyvinyl alcohol, water and at least one additive.
- 2) A composition comprising a combination comprising polyvinyl alcohol, at least one silicon containing foam suppressant, water, and sodium chloride.
- 3) The composition of Claim 1 wherein the water comprises naturally occurring salt containing water.
- 4) The composition of Claim 2 wherein the water comprises naturally occurring salt containing water.
- 5) The composition of Claim 1 further comprising at least one water soluble silicate.
- 6) The composition of Claim 2 further comprising at least one water soluble silicate.
- 7) The composition of Claim 1 wherein said composition has a basic pH.
- 8) The composition of Claim 2 wherein said composition has a basic pH.
- 9) The composition of Claim 1 wherein said water dispersible polymer comprises at least one of vinyl acetate and copolymers thereof.
- 10) The composition of Claim 1 wherein said water dispersible polymer comprises at least one vinyl acetate emulsion.
